⚠ Safety Information

Do not disassemble,reassemble,modify,or attempt to repair the product by yourself.If there are any issues,please contact the company's professional maintenance personnel.

Product Specifications

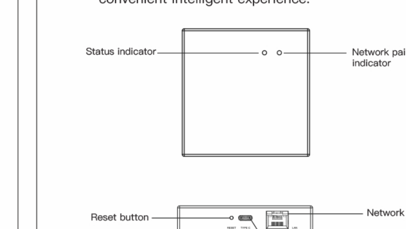
Model	MZHUB
Input Power	5 V ⎓1A (⎓:Direct Current)
Working Temperature	-10℃- +45℃
Working Humidity	10%to 90%RH(non-condensing)
Standby Power	≤0.5W
Internet Port	10/100Mbps Ethernet
Product Size	90.0mm x 90.0mm x 23.0mm
Net Weight	About 74.5 g
Wireless Protocol	ZigBee、Thread
Frequency Range	2.4 ~2.483GHz
RF Output Power	13dbm

Packing list

- Wired Smart Gateway x 1
- Instruction manual x 1
- Power cable x 1
- Adapter x 1(optional)
- Network cable x 1

Product Description

As the Internet of Things connection hub supporting the Matter protocol, the smart wired gateway Pro has local management and the ability of stable operation of multiple devices.It can connect devices such as home automation, smart energy and home security systems,and use mobile phones to remotely view or control devices,and it can diverse scene automation and provide users with convenient intelligent experience.



Indicator Description

① Status Indicator(Green):
Configuration Status:

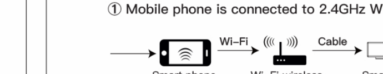
Steady On	Connected Router
Steady Off	Router not connected

② Network Connection Indicator(Green):
Network Connection Status:

Steady On	Ready for connection
Steady Off	Successful connection
Blinks	System startup

Preparation For Use

① Mobile phone is connected to 2.4GHz Wi-Fi



Ensure that the smart phone and the smart gateway are in the same Wi-Fi network to ensure an effective connection between the smart phone and the Smart Gateway.

Add Devices

❶ Download MOES App on App store or scan the QR code

MOES App is upgraded as much more compatibility than Tuya Smart/Smart Life App, functional well for scene controlled by Siri, widget and scene recommendations as the fully new customized service.
(**Note:** Tuya Smart/Smart Life App still works, but MOES App is highly recommended)

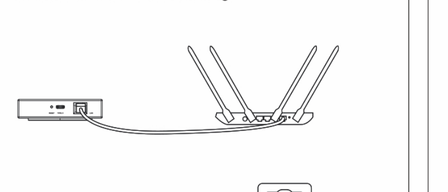
❷ Registration or Log in.

- Download "MOES" Application.
- Enter the Register/Login interface; tap "Register" to create an account by entering your phone number to get verification code and "Set password". Choose "Log in" if you already have a MOES account.

Add Device

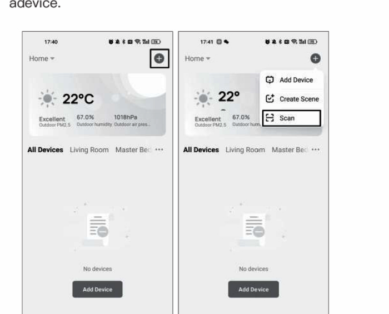
1. Power on the gateway and connect it to the router through the network cable.

2. Ensure that both indicators of the gateway are on.
(If reset is required,press and hold the reset button for more than 5s before releasing)



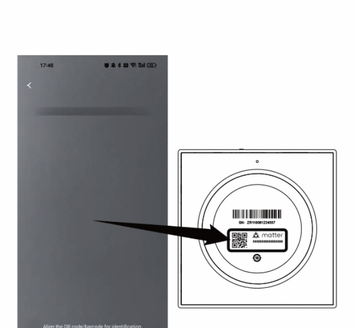
---

3. On the App's Home page, Click the "+" in the upper right corner to add adevice, click the code scanning entrance in the upper right corner to add adevice.



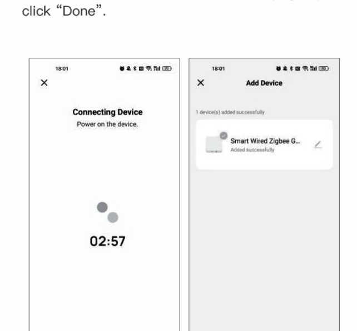
---

4. Scan the QR code on the devices to pair it with the network.



---

5. Add the device successfully, you can edit the name of the device to enter the device page by click "Done".



Material Compatibility and Usage Requirements

Tripartite platform devices and app versions	Apple	IOS mobile system on 16.3.1 and above Homepod version 16.3.2 and above
	Google	GHA>=2.67.16.1 NestHub>=1.56.324896
	Amazon	Currently only supports Wi-Fi and Thread. single product, no gateway support at this time

Bridge to Apple Home

Note:
① Please make sure the IOS system of the mobile is above 16.3.1;
② A smart home hub must be set(eg: HomePod,HomePod Mini,Apple TV or iPad),then the Matter devices can be added into "Home"App.
③ The configured Wi-Fi must be on the local Area Network (LAN) with the hub.

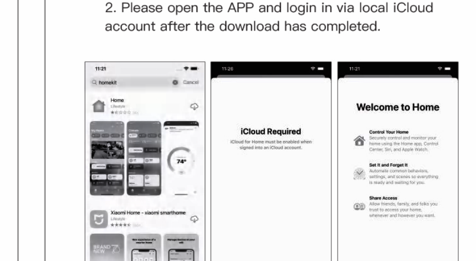
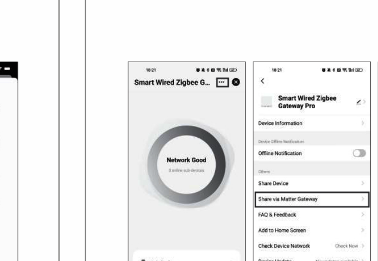
2. Please open the APP and login in via local iCloud account after the download has completed.



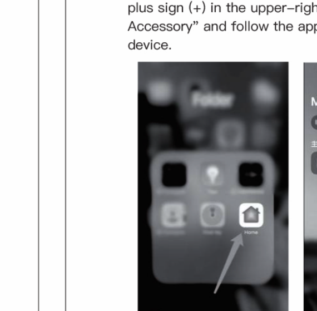
Matter share code location

Enter the gateway panel, click on '...' in the upper right corner Then click Share via Matter Gateway to enter the Matter Sharing Code interface.



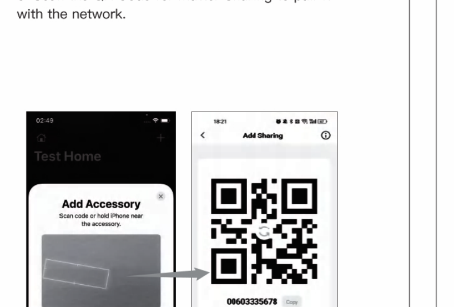
Add Device

1. Confirm that the MOES APP has been configured with the Matter gateway.
2. Open the Home app on your iPhone and tap the plus sign (+) in the upper-right corner.Click "Add Accessory" and follow the application guide to add device.



---

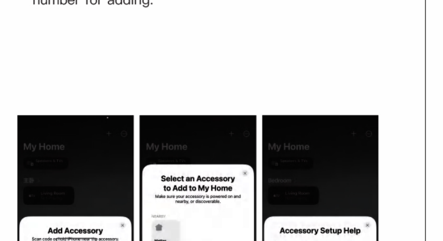
3. Scan the QR Code for Matter Sharing to pair it with the network.

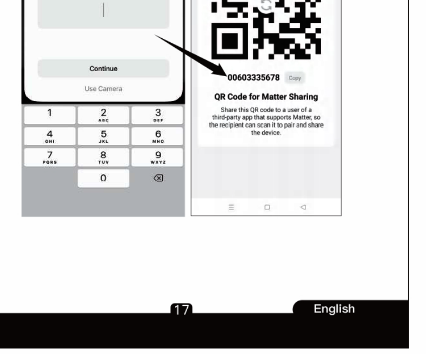


Test Home
Add Accessory
I Don't Have a Code or Cannot Scan
Add Sharing
QR Code for Matter Sharing

---

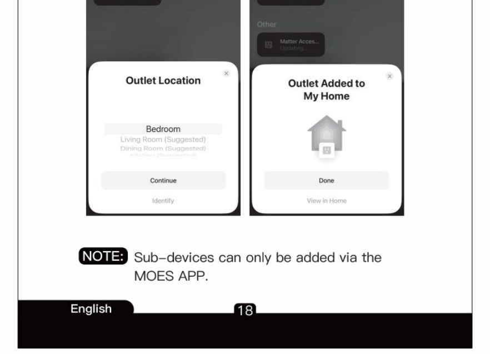
4. If you cannot scan the QR code, tap I Don't Have a Code or Cannot Scan. Then input the serial number for adding.





---

5. Device added successfully.



NOTE: Sub-devices can only be added via the MOES APP.

Bridge to Google Home

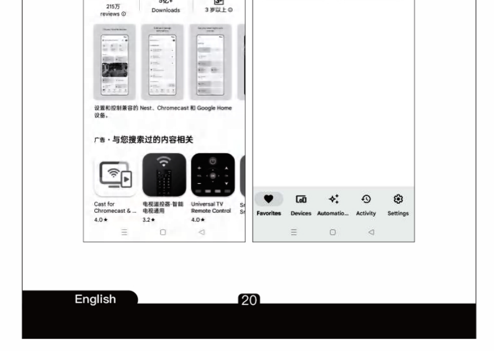
Note:
① A "Matter enabled hub" must be set up in order to add Matter devices to the 'Google Home' app;
② Configured WiFi network and Matter-enabled hub must in the same local area network(LAN) ;
③ Please open the Bluetooth in the phone before adding firstly.

APP Download

1.Android system: Please download "Google Home"App from GooglePlay;
2.IOS system: Please "Google Home"App from AppStore.

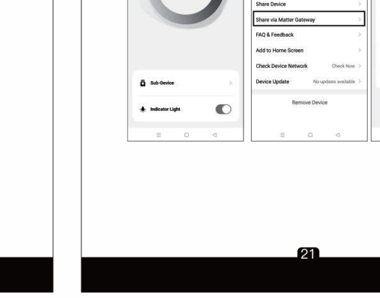
---

3. Please sign in, create a home , and add Matter-enabled hub (Please refer to Google device instructions)



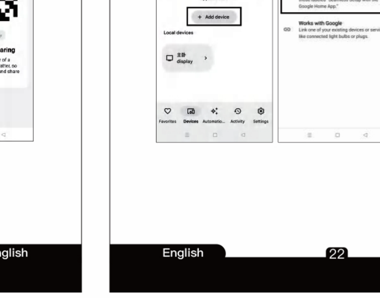
Matter share code location

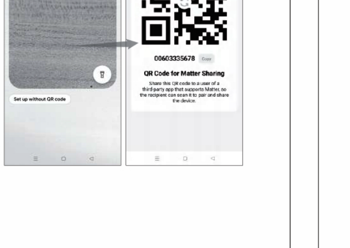
Enter the gateway panel, click on '...' in the upper right corner Then click Share via Matter Gateway to enter the Matter Sharing Code interface.



Add Device

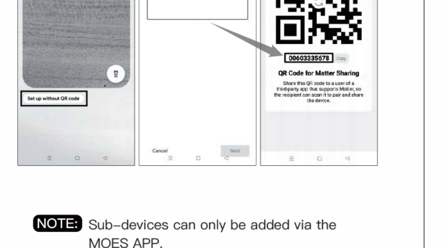
1. Confirm that the MOES APP has been configured with the Matter gateway.
2. Open the home app on your mobile phone and follow the application guide to add device.





---

3. If you cannot scan the QR code, tap 'Set up without QR code'. Then input the serial number for adding.



NOTE: Sub-devices can only be added via the MOES APP.

Instructions

- Add Sub-device
  The sub-device can be added after the gateway is successfully added.
  Please refer to the instructions on the APP to add the sub-device.
- Rest network
  Press and hold the gateway button for more than 5 seconds to reset the device.After the initialization of the device is completed, the device will on distribution network state again,and repeat the steps of [Add Device]
- Note:
  1. Please ensure that your phone is connected to the 2.4GHz Wi-Fi network before adding a gateway.
  2. In order to make the connection more smooth, please try to keep the phone close to the gateway and ensure that the phone and the gateway are in the same Wi-Fi network.
  3. If the device fails to be added or is not in the distribution network state after power on,please press and hold the gateway button for more than 5 seconds to reset the device and add it again

---

Declaration of conformity

Hereby,WENZHOU NOVA NEW ENERGY CO.,LTD declares that the radio equipment type MZHUB is in compliance with Directive 2014/53/EU, 2011/65/EU. The full text of the EU declaration of conformity is available at the following internet address:
https://www.moestech.com/blogs/news/mzhub

RECYCLING INFORMATION

All products marked with the symbol for separate collection of waste electrical and electronic equipment (WEEE Directive 2012/19 / EU) must be disposed of separately from unsorted municipal waste. To protect your health and the environment, this equipment must be disposed of at designated collection points for electrical and electronic equipment designated by the government or local authorities. Correct disposal and recycling will help prevent potential negative consequences for the environment and human health. To find out where these collection points are and how they work, contact the installer or your local authority.

WARRANTY INSTRUCTIONS

Dear Sir or Madam, thank you for purchasing the product.
We hope you'll enjoy using it.
The warranty for the products in the warranty card is hereby granted as follows.
As a condition of using the warranty, you must comply with the following terms and procedures:
1. Products are covered by a 24-month warranty,effective from the date of purchase of the covered product by a retail customer.
2. In order to exercise warranty rights, the purchaser must present: a) Warranty card, b) Proof of purchase (VAT invoice, financial receipt or other document confirming the actual date of purchase), unless the purchase date of the product comes from the warranty card.
3. If product quality problems occur within 24 months from the date of receipt, please prepare the product and packaging and go to the place or store where you purchased it to apply for after-sales maintenance. If the product is damaged due to personal reasons, a certain maintenance fee will be charged.
4. We recommend that you properly protect the goods when delivering them to the guarantor - for this purpose, we recommend that you use the original packaging with padding to ensure safe transportation.If you choose to use replacement packaging, we recommend that you ensure that the product is adequately protected from damage during shipping. We recommend that you place an appropriate sticker on your packaging indicating the product's susceptibility to impact, such as "Warning Glass".
5. Reported defects covered by the warranty will be considered immediately and no later than 14 days from the date of delivery of the goods to the Guarantor.
6. After checking and determining the legality of the warranty claim, the Guarantor's services will repair the product within a reasonable time, not exceeding 30 days from the date of delivery of the goods to the Guarantor. However, if hard-to-find spare parts are required, this deadline may extend the time it takes to deliver the part from the manufacturer's factory.
7. The warranty does not include the performance of maintenance and similar operations specified in the user manual, and users are obliged to do it themselves.
8. If defects occur due to natural wear and tear during use, the warranty does not cover it.
9. The warranty does not cover:
a) Mechanical damage caused by the user's fault and product defects caused by such damage.
b) Damage caused by improper use of the product.
10. The rights under the guarantee will expire in the following circumstances:
a) Remove the warranty seal from the product.
b) Remove the serial number from the product.
c) Take action to eliminate physical defects in the product outside of authorized service.
d) Use non-original parts and consumables.

Installationshandbuch (Deutsch)

Geräte hinzufügen

❶ Laden Sie die MOES App im App Store herunter oder scannen Sie den QR-Code

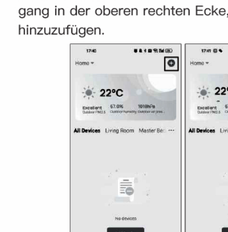
MOES App ist als viel mehr Kompatibilität als Tuya Smart / Smart Life App, funktionale gut für Szene durch Siri, Widget und Szene Empfehlungen als die völlig neue kundenspezifische Service gesteuert aktualisiert.
(**Hinweis:** Tuya Smart/Smart Life App funktioniert immer noch, aber MOES App ist sehr zu empfehlen)

❷ Registrierung oder Anmeldung.

- Laden Sie die "MOES"-Anwendung herunter.
- Rufen Sie die Register/Login-Schnittstelle auf; tippen Sie auf "Registrieren", um ein Konto zu erstellen, indem Sie Ihre Telefonnummer eingeben, um einen Verifizierungscode zu erhalten, und "Passwort festlegen". Wählen Sie "Anmelden", wenn Sie bereits ein MOES-Konto haben.

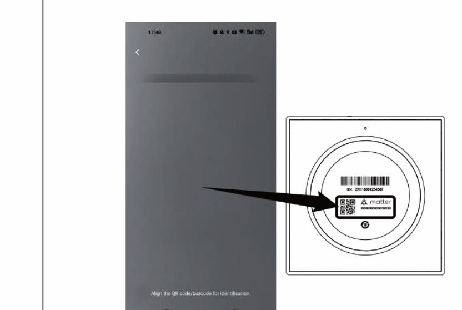
Gerät hinzufügen

1. Schalten Sie das Kabelmodem ein und schließen Sie es über das Netzwerkkabel an den Router an.
2. Stellen Sie sicher, dass beide Anzeigen des Kabelmodems eingeschaltet sind.
(Wenn ein Reset erforderlich ist, halten Sie die Reset-Taste länger als 5 Sekunden gedrückt, bevor Sie sie loslassen.)
3. Klicken Sie auf der Startseite der App auf das "+" in der oberen rechten Ecke, um ein Gerät hinzuzufügen, klicken Sie auf den Code-Scan-Eingang in der oberen rechten Ecke, um ein Gerät hinzuzufügen.



---

4. Scannen Sie den QR-Code auf den Geräten, um sie mit dem Netzwerk zu verbinden.



5. Wenn Sie das Gerät erfolgreich hinzugefügt haben, können Sie den Namen des Geräts bearbeiten und die Geräteseite aufrufen, indem Sie auf "Fertig" klicken.

Materialkompatibilität und Anforderungen an die Verwendung

Dreiteilige Plattformgeräte und App-Versionen	Apfel	IOS Mobile System ab 16.3.1 und höher Homepod Version 16.3.2 und höher
	Google	GHA>=2.67.16.1 NestHub>=1.56.324896
	Amazon	Unterstützt derzeit nur Wi-Fi und Thread. Einzelprodukt, derzeit keine Gateway-Unterstützung

Brücke zu Apple Home

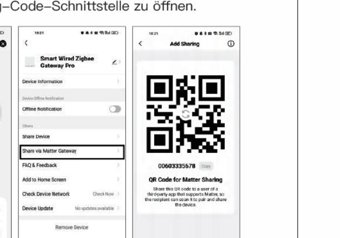
Anmerkung:
① Bitte stellen Sie sicher, dass das IOS-System des Handys über 16.3.1 ist;
② Es muss ein Smart Home Hub eingerichtet werden (z. B. HomePod, HomePod Mini, Apple TV oder iPad), dann können die Matter-Geräte in der "Home"-App hinzugefügt werden.
③ Das konfigurierte Wi-Fi muss sich im LAN (Local Area Network) mit dem Hub befinden.
④ Bitte öffnen Sie vor dem Hinzufügen zunächst Bluetooth.

APP herunterladen

1. Bitte öffnen Sie APP Store, dann suchen Sie "HomeKit" und laden Sie die APP herunter.
2. Bitte öffnen Sie die APP und melden Sie sich über Ihr lokales iCloud-Konto an, nachdem der Download abgeschlossen ist.

Matter share code location

Öffnen Sie das Gateway-Panel, klicken Sie auf "..." in der oberen rechten Ecke und klicken Sie dann auf "Share via Matter Gateway", um die Matter-Sharing-Code-Schnittstelle zu öffnen.



Gerät hinzufügen

1. Stellen Sie sicher, dass die MOES APP mit dem Matter-Gateway konfiguriert wurde.
2. Öffnen Sie die Home App auf Ihrem iPhone und tippen Sie auf das Plus-Zeichen (+) in der oberen rechten Ecke.Klicken Sie auf "Zubehör hinzufügen" und folgen Sie der Anleitung, um das Gerät hinzuzufügen.
3. Scannen Sie den QR-Code für Matter Sharing, um es mit dem Netzwerk zu koppeln.
mit dem Netzwerk zu verbinden.
4. Wenn Sie den QR-Code nicht scannen können, tippen Sie auf "Ich habe keinen Code" oder "Ich kann nicht scannen". Geben Sie dann die Seriennummer zum Hinzufügen ein.
5. Das Gerät wurde erfolgreich hinzugefügt.

HINWEIS: Subdevices können nur über die MOES APP hinzugefügt werden.

Brücke zu Google Home

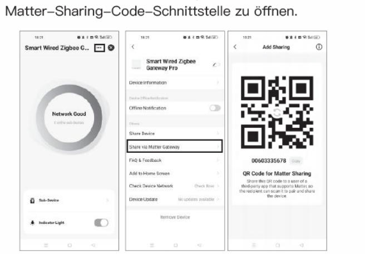
Anmerkung:
① Es muss ein "Matter-fähiger Hub" eingerichtet werden, um Matter-Geräte zur "Google Home"-App hinzuzufügen; .
② Das konfigurierte WiFi-Netzwerk und der Matter-fähige Hub müssen sich im selben lokalen Netzwerk (LAN) befinden ;
③ Bitte öffnen Sie vor dem Hinzufügen zunächst die Bluetooth-Funktion des Telefons.

APP herunterladen

1. Android-System: Bitte laden Sie die "Google Home"-App von GooglePlay; herunter.
2.IOS-System: Bitte "Google Home"-App aus dem AppStore herunterladen.
3. Bitte melden Sie sich an, erstellen Sie ein Zuhause und fügen Sie einen Matter-fähigen Hub hinzu (Bitte beachten Sie die Anweisungen für Google-Geräte).

Matter share code location

Öffnen Sie das Gateway-Panel, klicken Sie auf "..." in der oberen rechten Ecke und klicken Sie dann auf "Share via Matter Gateway", um die Matter-Sharing-Code-Schnittstelle zu öffnen.



Gerät hinzufügen

1. Bestätigen Sie, dass die MOES APP mit dem Matter-Gateway konfiguriert wurde.
2. Öffnen Sie die Home-App auf Ihrem Mobiltelefon und folgen Sie der Anwendungsanleitung, um ein Gerät hinzuzufügen.
3. Wenn Sie den QR-Code nicht scannen können, tippen Sie auf "Ohne QR-Code einrichten". Geben Sie dann die Seriennummer zum Hinzufügen ein.

HINWEIS: Subdevices können nur über die MOES APP hinzugefügt werden.

Konformitätserklärung

Hiermit erklärt WENZHOU NOVA NEW ENERGY CO., LTD, dass das Funkgerät Typ MZHUB den Richtlinien 2014/53/EU und 2011/65/EU entspricht.
Der vollständige Text der EU-Konformitätserklärung ist unter der folgenden Internetadresse verfügbar:

Manual de instalación (Español)

Añadir dispositivos

❶ Descarga la aplicación MOES en App store o escanea el código QR

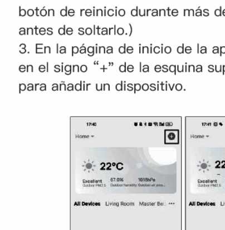
MOES App se actualiza como mucho más compatibilidad que Tuya Smart / Smart Life App, funcional bien para la escena controlada por Siri, widget y recomendaciones de escena como el servicio personalizado totalmente nuevo.
(**Nota:** Tuya Smart/Smart Life App sigue funcionando, pero MOES App es muy recomendable).

❷ Registrarse o Iniciar sesión.

- Descargar la aplicación "MOES".
- Acceda a la interfaz Registro/Inicio de sesión; pulse "Registro" para crear una cuenta introduciendo su número de teléfono para obtener el código de verificación y "Establecer contraseña". Elige "Iniciar sesión" si ya tienes una cuenta MOES.

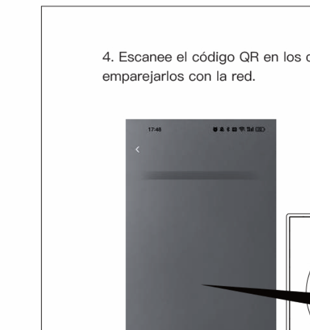
Añadir dispositivo

1. Encienda la pasarela y conéctela al router a través del cable de red.
2. Asegúrese de que ambos indicadores de la pasarela están encendidos.
(Si es necesario reiniciar, mantenga pulsado el botón de reinicio durante más de 5 segundos antes de soltarlo.)
3. En la página de inicio de la aplicación, haz clic en el signo "+" de la esquina superior derecha para añadir un dispositivo.



---

4. Escanee el código QR en los dispositivos para emparejarlos con la red.



5. Añada el dispositivo correctamente, puede editar el nombre del dispositivo para entrar en la página del dispositivo haciendo clic en "Hecho".

Compatibilidad de materiales y Requisitos de uso

Plataforma tripartita de dispositivos y versiones de aplicaciones	Manzana	Sistema móvil IOS en 16.3.1 y superior Homepod versión 16.3.2 y superior
	Google	GHA>=2.67.16.1 NestHub>=1.56.324896
	Amazon	Actualmente sólo admite Wi-Fi y Thread. producto único, no admite pasarela por el momento.

Puente a Apple Home

Nota:
① Por favor, asegúrese de que el sistema IOS del móvil es superior a 16.3.1;
② Un concentrador de casa inteligente debe establecerse (por ejemplo: HomePod, HomePod Mini, Apple TV o iPad), a continuación, los dispositivos de la materia se pueden añadir en "Inicio"App.
③ El Wi-Fi configurado debe estar en la red de área local (LAN) con el concentrador.
④ Por favor, abra Bluetooth antes de añadir en primer lugar.

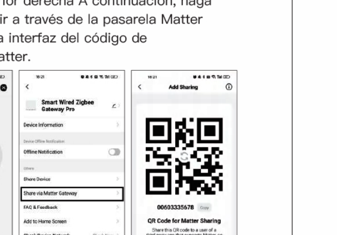
Descargar APP

1. Abra APP Store, busque "HomeKit" y descargue la APP.

2. Abra la APP e inicie sesión a través de su cuenta local de iCloud una vez finalizada la descarga.

Ubicación del código de participación en la materia

Entre en el panel de la pasarela, haga clic en '...' en la esquina superior derecha A continuación, haga clic en Compartir a través de la pasarela Matter para entrar en la interfaz del código de compartición Matter.



Añadir dispositivo

2. Abra la aplicación Home en su iPhone y pulse el signo más (+) en la esquina superior derecha.Haga clic en "Añadir accesorio" y siga la guía de la aplicación para añadir el dispositivo.
3. 3. Escanee el código QR de Matter Sharing para emparejarlo con la red.
con la red.
4. Si no puede escanear el código QR, pulse No tengo código o No puedo escanear. A continuación, introduzca el número de serie para añadirlo.
5. El dispositivo se ha añadido correctamente.

NOTA: Los subdispositivos sólo pueden añadirse a través de la APP MOES.

Puente a Google Home

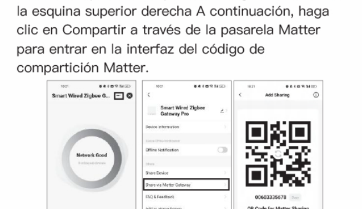
Nota:
① Debe configurarse un "hub habilitado para Matter" para poder añadir dispositivos Matter a la app 'Google Home'; .
② La red WiFi configurada y el hub habilitado para Matter deben estar en la misma red de área local(LAN) ;
③ Por favor, abra el Bluetooth en el teléfono antes de añadir en primer lugar.

Descargar APP

1.Sistema Android: Descargue la aplicación "Google Home" de GooglePlay; .
2.Sistema IOS: Por favor, "Google Home "App desde AppStore.
3. Por favor, inicie sesión, cree un hogar y añada un hub habilitado para Matter (Por favor, consulte las instrucciones del dispositivo de Google).

Ubicación del código de participación en la materia

Entre en el panel de la pasarela, haga clic en '...' en la esquina superior derecha A continuación, haga clic en Compartir a través de la pasarela Matter para entrar en la interfaz del código de compartición Matter.



Añadir dispositivo

1. Confirme que la APP MOES se ha configurado con la pasarela Matter.
2. Abre la app de inicio en tu teléfono móvil y sigue la guía de la aplicación para añadir dispositivo.
3. 3. Si no puede escanear el código QR, pulse "Configurar sin código QR". A continuación, introduzca el número de serie para añadir.

NOTA: Los subdispositivos sólo pueden añadirse a través de la APP MOES.

Declaración de conformidad

Por la presente, WENZHOU NOVA NEW ENERGY CO., LTD declara que el equipo de radio tipo MZHUB cumple con la Directiva 2014/53/UE, 2011/65/UE.
El texto completo de la declaración de conformidad de la UE está disponible en la siguiente dirección de Internet:
https://www.moestech.com/blogs/news/mzhub

Manuel d'installation (Français)

Ajouter des appareils

❶ Téléchargez l'application MOES sur l'App store ou scannez le code QR

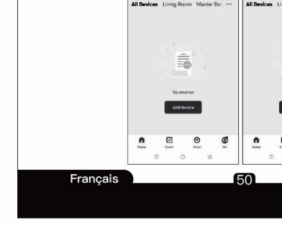
L'application MOES est beaucoup plus compatible que l'application Tuya Smart/Smart Life, elle fonctionne bien pour les scènes contrôlées par Siri, les widgets et les recommandations de scènes en tant que nouveau service personnalisé.
(Note : Tuya Smart/Smart Life App fonctionne toujours, mais MOES App est fortement recommandé)

❷ S'inscrire ou se connecter.

- Télécharger l'application "MOES".
- Entrez dans l'interface Enregistrement/Connexion ; appuyez sur "Enregistrer" pour créer un compte en entrant votre numéro de téléphone pour obtenir le code de vérification et "Définir le mot de passe". Choisissez "Se connecter" si vous avez déjà un compte MOES.

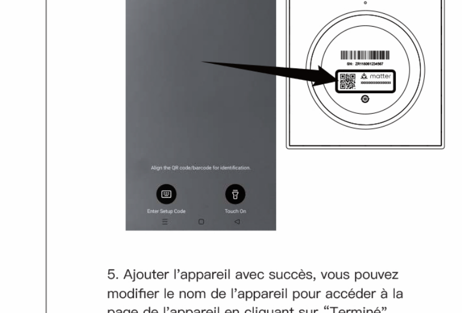
Ajouter un dispositif

1. Mettez la passerelle sous tension et connectez-la au routeur à l'aide du câble réseau.
2. Assurez-vous que les deux indicateurs de la passerelle sont allumés.
(Si une réinitialisation est nécessaire, appuyez sur le bouton de réinitialisation pendant plus de 5 secondes avant de le relâcher).
3. Sur la page d'accueil de l'application, cliquez sur le "+" dans le coin supérieur droit pour ajouter un appareil, cliquez sur l'entrée de lecture du code dans le coin supérieur droit pour ajouter un appareil.



---

4. Scannez le code QR sur l'appareil pour l'associer au réseau.



5. Ajouter l'appareil avec succès, vous pouvez modifier le nom de l'appareil pour accéder à la page de l'appareil en cliquant sur "Terminé".

Compatibilité des matériaux et Exigences d'utilisation

Plateforme tripartite : appareils et versions d'applications	Pomme	Système mobile IOS 16.3.1 et supérieur Homepod version 16.3.2 et supérieure
	Google	GHA>=2.67.16.1 NestHub>=1.56.324896
	Amazon	Actuellement, seuls le Wi-Fi et le fil sont pris en charge. Produit unique, pas de prise en charge des passerelles pour l'instant.

Passerelle vers l'Apple Home

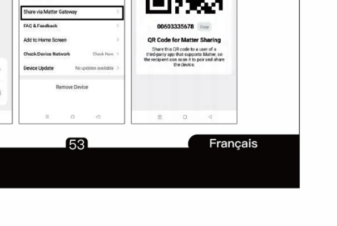
Note:
① Veuillez vous assurer que le système IOS du mobile est supérieur à 16.3.1 ;
② Un hub de maison intelligente doit être configuré (ex : HomePod, HomePod Mini, Apple TV ou iPad), puis les appareils Matter peuvent être ajoutés dans l'application "Home".
③ Le Wi-Fi configuré doit se trouver sur le réseau local (LAN) avec le concentrateur.
④ Veuillez ouvrir le Bluetooth avant de l'ajouter.

Télécharger l'APP

1. Ouvrez l'APP Store, recherchez "HomeKit" et téléchargez l'APP.
2. Veuillez ouvrir l'APP et vous connecter via votre compte iCloud local une fois le téléchargement terminé.

Emplacement du code de partage de la matière

Entrez dans le tableau de bord de la passerelle, cliquez sur "..." dans le coin supérieur droit. Cliquez ensuite sur Partager via la passerelle Matter pour entrer dans l'interface du code de partage Matter.



Ajouter un dispositif

1. Confirmez que le MOES APP a été configuré avec la passerelle Matter.
2. Ouvrez l'application Home sur votre iPhone et touchez le signe plus (+) dans le coin supérieur droit. Cliquez sur "Ajouter un accessoire" et suivez le guide d'application pour ajouter un appareil.
3. Scannez le code QR du Matter Sharing pour l'associer au réseau.
avec le réseau.
4. Si vous ne pouvez pas scanner le code QR, appuyez sur Je n'ai pas de code ou Impossible de scanner. Saisissez ensuite le numéro de série pour l'ajouter.
5. L'appareil a été ajouté avec succès.

NOTE: Les sous-appareils ne peuvent être ajoutés que par l'intermédiaire de l'application MOES APP.

Passerelle vers Google Home

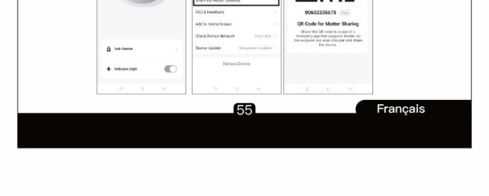
Note:
① Un "hub Matter" doit être configuré afin d'ajouter des appareils Matter à l'application 'Google Home' ;
.
② Le réseau WiFi configuré et le hub Matter doivent se trouver dans le même réseau local (LAN) ;
③ Veuillez ouvrir le Bluetooth dans le téléphone avant de procéder à l'ajout.

Télécharger l'APP

1. système Android : Téléchargez l'application "Google Home" sur GooglePlay; .
2. système IOS : Téléchargez l'application "Google Home" depuis l'AppStore.
3. Connectez-vous, créez un foyer et ajoutez un concentrateur compatible avec Matter (veuillez vous référer aux instructions de l'appareil Google).

Emplacement du code de partage de la matière

Entrez dans le tableau de bord de la passerelle, cliquez sur "..." dans le coin supérieur droit. Cliquez ensuite sur Partager via la passerelle Matter pour entrer dans l'interface du code de partage Matter.



Ajouter un dispositif

1. Confirmez que le MOES APP a été configuré avec la passerelle Matter.
2. Ouvrez l'application maison sur votre téléphone portable et suivez le guide d'application pour ajouter un appareil.
3. Si vous ne pouvez pas scanner le code QR, appuyez sur "Configurer sans code QR". Saisissez ensuite le numéro de série pour l'ajout.

NOTE: Les sous-appareils ne peuvent être ajoutés que par l'intermédiaire de l'application MOES APP.

Déclaration de conformité

Par la présente, WENZHOU NOVA NEW ENERGY CO., LTD déclare que l'équipement radio de type MZHUB est conforme à la directive 2014/53/UE, 2011/65/UE.

Manuale di installazione (Italiano)

Aggiungi dispositivi

❶ Scarica l'applicazione MOES su App Store o scansiona il codice QR

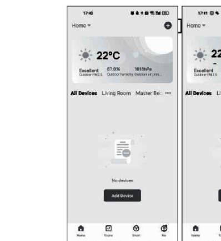
L'applicazione MOES è stata aggiornata con una compatibilità molto maggiore rispetto all'applicazione Tuya Smart/Smart Life, con una buona funzionalità per le scene controllate da Siri, widget e raccomandazioni di scene come servizio personalizzato completamente nuovo.
(Nota: l'applicazione Tuya Smart/Smart Life funziona ancora, ma l'applicazione MOES è altamente raccomandata).

❷ Registrazione o accesso.

- Scaricare l'applicazione "MOES".
- Accedere all'interfaccia Registrazione/Login; toccare "Registrazione" per creare un account inserendo il numero di telefono per ottenere il codice di verifica e "Imposta password". Scegliete "Accedi" se avete già un account MOES.

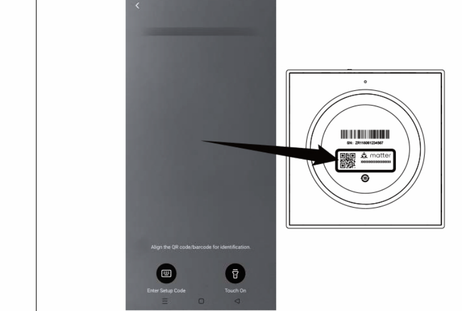
Aggiungi dispositivo

1. Accendere il gateway e collegarlo al router tramite il cavo di rete.
2. Assicurarsi che entrambi gli indicatori del gateway siano accesi.
(Se è necessario un reset, tenere premuto il pulsante di reset per più di 5 secondi prima di rilasciarlo).
3. Nella pagina iniziale dell'app, fare clic sul "+" nell'angolo superiore destro per aggiungere un dispositivo, fare clic sull'ingresso di scansione del codice nell'angolo superiore destro per aggiungere un dispositivo.



---

4. Scansionare il codice QR sui dispositivi per associarli alla rete.



5. Se il dispositivo viene aggiunto con successo, è possibile modificarne il nome per accedere alla pagina del dispositivo facendo clic su "Fine".

Compatibilità dei materiali e Requisiti di utilizzo

Dispositivi e versioni di app della piattaforma tripartita	Mela	Sistema mobile IOS 16.3.1 e superiore Homepod versione 16.3.2 e successive
	Google	GHA>=2.67.16.1 NestHub>=1.56.324896
	Amazon	Attualmente supporta solo Wi-Fi e Thread. singolo prodotto, nessun supporto per gateway al momento.

Ponte verso casa Apple

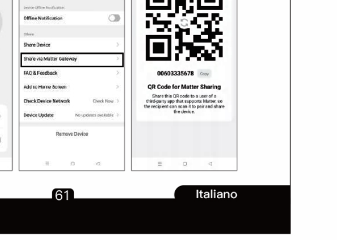
Nota:
① Assicurarsi che il sistema IOS del cellulare sia superiore a 16.3.1
Assicurarsi che il sistema IOS del dispositivo mobile sia superiore a 16.3.1;
② È necessario impostare un hub domestico intelligente (ad esempio: HomePod, HomePod Mini, Apple TV o iPad), quindi i dispositivi Matter possono essere aggiunti all'app "Home".
③ Il Wi-Fi configurato deve trovarsi sulla rete locale (LAN) con l'hub.
④ Aprire il Bluetooth prima di aggiungere il dispositivo.

Scaricare l'APP

1. Aprire APP Store, quindi cercare "HomeKit" e scaricare l'APP.
2. Aprire l'APP e accedere tramite l'account iCloud locale al termine del download.

Posizione del codice di condivisione della materia

Accedere al pannello del gateway, fare clic su '...' nell'angolo in alto a destra Quindi fare clic su Condividi tramite Matter Gateway per accedere all'interfaccia del codice di condivisione Matter.



Aggiungi dispositivo

1. Confermare che l'APP MOES è stata configurata con il gateway Matter.
2. Aprire l'applicazione Home sull'iPhone e toccare il segno più (+) nell'angolo in alto a destra. Fare clic su "Aggiungi accessorio" e seguire la guida dell'applicazione per aggiungere il dispositivo.
3. Scansionare il codice QR di Matter Sharing per associarlo alla rete.
con la rete.
4. Se non è possibile scansionare il codice QR, toccare Non ho un codice o Non riesco a scansionare. Immettere quindi il numero di serie per l'aggiunta.
5. Il dispositivo è stato aggiunto con successo.

NOTA: I dispositivi secondari possono essere aggiunti solo tramite l'APP MOES.

Ponte verso Google Home

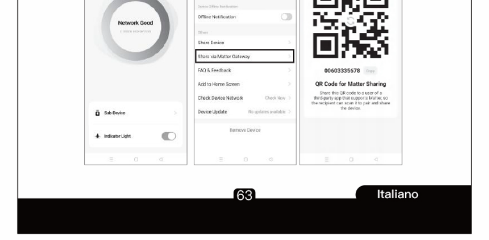
Nota:
① Per aggiungere i dispositivi Matter all'app 'Google Home', è necessario configurare un "hub abilitato Matter"; .
② La rete WiFi configurata e l'hub abilitato a Matter devono trovarsi nella stessa rete locale (LAN) ;
③ Aprire il Bluetooth del telefono prima di aggiungerlo.

Scaricare l'APP

1. Sistema Android: Scaricare l'applicazione "Google Home" da GooglePlay; .
2. Sistema iOS: Scaricare l'applicazione "Google Home" da AppStore.
3. Effettuare l'accesso, creare una casa e aggiungere un hub abilitato a Matter (fare riferimento alle istruzioni del dispositivo Google).

Posizione del codice di condivisione della materia

Enter the gateway panel, click on '...' in the upper right corner Then click Share via Matter Gateway to enter the Matter Sharing Code interface.



Aggiungi dispositivo

1. Confermare che l'APP MOES è stata configurata con il gateway Matter.
2. Aprire l'applicazione Home sul cellulare e seguire la guida dell'applicazione per aggiungere il dispositivo.
3. Se non è possibile scansionare il codice QR, toccare "Configura senza codice QR". Quindi inserire il numero di serie per l'aggiunta.

NOTA: I dispositivi secondari possono essere aggiunti solo tramite l'APP MOES.
