How to reset /pair Wi-Fi code

a. For switch module: Press the reset button on the module for a long time until the beep sounds continuously and quickly for pairing and reset mode.

b. For rocker light switch: press the switch button for 20 times (ON/OFF cycle for 10 times) until the beep sounds continuously and rapidly as Di-Di-Di... for pairing and reset mode. c. For reset switch:

press the switch button for 10 times until the beep sounds continuously and rapidly as Di-Di-Di... for pairing and reset mode.

How to achieve multicontrol association (only for N+L wire)

Note: Please confirm you have successfully finished the link method above for adding this switch to your Smart Life App before the association.

1. Add another smart switch to the same Smart Life App. (If there is a smart switch having been added before to the app, just go to next step.)

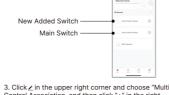

Note: If your switch requires a neutral wire, then there is no need to wire the new added switch to the light, only L and N are required for wiring. Then you can control 1 light with multiple switches in Smart Life App.

If your switch doesn't requires a neutral wire, you need in you switch uses it requires a near when, you need to follow the wiring instructions to connect the L and light. At this point, you can control the lights simultaneously with multiple switches.

2. Then you will see two devices in the app and click

the main switch (as one gang switch as below) by

entering into the next operation

Control Association, and then click "+" in the right

4. Choose the switch that you want to associate to and then choose the switch button that you want to control the same light. Then go back to previous page, you will see two itemsin the page, one is your main switch, the other is the one you associate just now.

Note: Please confirm the associated switch is enabled

5. Now you are able to control your light with two

Do not associate another button in the same switch for

6. If you want to add another third or more smart switches to control your light, just repeat the steps above. And you will see the result as below when you associate another new switch.

Enter Smart Life Skill in Alexa APP

1. Complete product networking configuration in the App

Complete the device's networking configuration according to the prompts in the App. Note: In the App, change the name of the device to an easily identifiable name such as Alexa: names are usually in English, such as "bed light"

2. How to connect Smart Device to Amazon Alexa.

1. Launch Smart Life App, sign into your account and make sure Smart Device is on the device list

2. Minimize Smart Life App, then launch the Alexa App and sign in your Alexa account and make sure you have at least one Alexa smart speaker-controlled device installed like Echo dot, etc.

3. In the upper left corner of Home page, press

	DISCOVER ALEXA			
ikills & Games	Things to Try		Your Skills
